## 1 style = 5 fits

### Specialists in fits

OAKMORE has great emphasis on shirt fits. We have developed 5 unique models, 3 for women and 2 for men. The unique models, coupled with the fact that we keep them in stock from size 32 up to 8XL 57/58, provides a high likelihood of finding a shirt that fits. All women's shirts come with extra buttons, so there is no 'peeking in'.

The fit on our shirts is based on the data we have on both men and women's body shape.

46% of all women have a body shape referred to as "rectangle", and another 21% a body shape referred to as "pear".

When it comes to men, 40% have a body shape referred to as "rectangle", and 26% a body shape referred to as "oval".

We don't promise to cover every single body shape with our shirts, but with three different fits for women, and two different for men, we believe its fait to say that we are close.
